## COMPANY LTD.

Tableware and Tables are not included

Can be rented from Farmhouse Catering Company or by It's Party Time Rentals

Buffets require a minimum of 12 people per order

**Buffet Catering Setup:** Buffet catering consists of long tables that contain serving dishes and equipment with all food options readily available for guests. Guests serve themselves by passing down the line single-file to each food dish. Depending on the size of the group there might be a buffet attendant on site to refill food dishes during the food service 2 hour period.

**Family Style Catering Setup:** Family Style Meal is one where courses are brought out and placed on the guest tables to serve themselves. It is a very informal way of service and emulates the way of having a meal with family and friends at home. Please ensure that there is room available on each table for the serving staff to place the dishes. Depending on the size of the group there might be a service attendant on site to replace food dishes during the food service 2 hour period.

**Plated Dinner Catering Setup:** Plated dinner catering service is most suitable for seated events where food service aims to cause the least disruption, while providing maximal satisfaction for the guests. Servers will set each amazing plate of the menu selected in front of each guest. Keep in mind that this service requires more serving staff than a Buffet Catering Set up. All food service is limited to a 2 hour period unless agreed upon with the client and the vendor.

**Take Out Style Catering:** Take Out Style is food that is cooked in the catering kitchen, individually wrapped up in disposable containers and taken by a customer to be eaten in another place. We do offer this item via our website at [www.farmhousecatering.ca](http://www.farmhousecatering.ca) > Online Order
